

Annual Patient Access API Usage Metrics Report

In compliance with the CMS Interoperability and Prior Authorization final rule (CMS-0057-F)¹, beginning in 2026, and annually thereafter, Magellan must report metrics in the form of aggregated, de-identified data on the number of patients who use the Patient Access API. Specifically, the data elements include:

1. The total number of unique patients whose data are transferred via the Patient Access API to a health app designated by the patient; and
2. The total number of unique patients whose data are transferred more than once via the Patient Access API to a health app designated by the patient (89 FR 8784)
