## Spotlight on IBHP services: Wraparound Intensive Services (WInS)

### What is Wraparound?

Wraparound is a planning process that brings people together to support a youth, with serious emotional or behavioral needs, and their family. Families choose the people they trust to be on their team.

### Who's on the team?

A team may include:

- **Natural supports:** Family members, friends, neighbors, or mentors who will stay in the youth's life long after Wraparound ends
- **System partners:** People from child welfare, juvenile probation, schools, developmental disability programs or other community programs
- **Formal supports:** Counselors, community-based rehabilitation services (CBRS) workers, or other service providers

Before joining the team, each person attends a short Wraparound orientation to understand how the process works and what their role will be. After orientation, they can decide if they want to take part.

### What if the youth or family feels unsure?

It is very common for families to feel unsure about inviting certain people to their team. They may feel:

- Uncomfortable sharing personal information
- Unsure about the relationship
- Worried about inviting people who work in legal or child welfare systems

Wraparound coordinators are trained to help families talk through these concerns. Families always make the final decision about who is, or is not, on their team.

### How team-based planning works

Once the team is formed, everyone works together to support the youth and family. The team creates a team mission statement that lists the family's main goals and hopes. The team reviews the mission statement often to stay on track.

In Wraparound, the youth and family are in charge. Each team member:

- Shares ideas to help the family build skills

- Takes action steps to support the plan
- Works toward goals that reflect the family's voice and choices

This teamwork helps the family receive better, more coordinated care.

### **Regular feedback and check-ins**

Wraparound planning includes regular check-ins to talk about progress and where support is still needed. Before Wraparound ends, team members receive a short survey to share feedback. Here's what some team members have said about the process:

- "My Wraparound team believed in me and helped me get this far." — Youth
- "These meetings help us stay on the same page." — School principal
- "I appreciate the support and communication." — Probation officer

### **Why it matters for families**

Team-based Wraparound planning helps families by:

1. **Building support:** Helps families feel less alone by bringing together people who care.
2. **Coordinating care:** Creates one clear plan when services come from many places.
3. **Creating long-term success:** Builds skills, hope, and stability that last long after services end.

### **Want to learn more?**

You can join a Wraparound 101 course to better understand how it works.
