

# Provider Notice

**From:** Magellan Healthcare

**Subject:** New resource available: TEDS Quick Tips for providers

## Overview

Magellan has created a new Treatment Episode Data Set (TEDS) Quick Tips guide to support providers with timely and accurate TEDS submission requirements.

This guide offers guidance on:

- When a TEDS record is required
- Which services require TEDS submission
- How to use the Combined Behavioral Health Assessment in P-CIS
- Tips for completing required fields efficiently

The [TEDS Quick Tips \(Edition 1\)](#) guide is now available on [MagellanofIdaho.com](http://MagellanofIdaho.com) on the [On-Demand Training](#) page in two locations:

1. ***For Providers > On-Demand Training > Outpatient provider training recordings and materials > TEDS***
2. ***For Providers > On-Demand Training > Inpatient and residential provider training recordings and materials > TEDS***

We encourage providers who submit TEDS data to review this resource and share it with staff involved in assessments and reporting.

## Questions?
