Provider Notice

From: Magellan Healthcare
Subject: Correction to IBHP Handbook Supplement

Attention: Updated requirement for treatment plan signatures in Magellan IBHP Handbook Supplement - Appendix C

Overview

The updated Idaho Behavioral Health Plan (IBHP) Provider Handbook Supplement – Appendix C initially included a requirement for treatment plans to have a signature. However, based on feedback received, we have removed this requirement for most treatment plans. Signatures will still be required for the following:

- Person-Centered Service Plans
- Child and Family Teams (CFTs)
- Skills Building/CBRS Treatment Plans

While signatures are no longer mandatory for other treatment plans, obtaining them remains a best practice. We will include the verbiage above in the next set of updates to Appendix C.
