

# Provider Notice

**From:** Magellan Healthcare

**Subject:** Update: H0003 drug testing code no longer covered effective July 1

## Overview

To better align Medicaid and other state funding for substance use disorder (SUD) services, Magellan is updating guidance related to drug testing codes.

Effective July 1, 2026, procedure code H0003 will no longer be covered for services funded through State Opioid Response (SOR), Substance Use Prevention, Treatment, and Recovery (SUPTR), or Medicaid.

## What providers should know

- Code H0003 will be removed from the rate schedule for SOR, SUPTR, and Medicaid-funded services.
- Providers should instead bill the appropriate drug testing codes, as applicable:
  - 80305
  - 80306
  - 80307

This change supports alignment with standard Medicaid billing practices for drug testing services.
