Provider Notice

From: Magellan Healthcare
Subject: Join the Magellan Healthcare network to provide Parenting with Love and Limits services

Interested in providing Parenting with Love and Limits service?

Overview

Magellan Healthcare is recruiting providers to deliver Parenting with Love and Limits® (PLL), an evidence-based, family-focused intervention available through the Idaho Behavioral Health Plan (IBHP). PLL supports youth with serious emotional disturbance (SED) or substance use disorder (SUD) and empowers families to rebuild healthy relationships and set consistent boundaries through:

- Multi-family group therapy sessions
- Individual family coaching sessions

We're looking for qualified providers ready to make a difference

You may be eligible to deliver PLL services if you are:

- A licensed master's-level behavioral health clinician (or practicing under Idaho-approved supervision).
- A BA/BS-level professional serving as a group co-facilitator.
- A contracted provider with the Idaho Department of Health and Welfare's (IDHW) Center of Excellence (COE) for PLL.

Training and certification support available!

All PLL providers must be licensed by the Savannah Family Institute (SFI) or a certified partner through the IDHW COE. The COE covers licensing fees for eligible providers.

Ready to get started?

Reach out today if interested in joining our network or if you have questions.
