# Provider Notice

**From:** Magellan Healthcare
**Subject:** Magellan expands mileage reimbursement for IBHP providers

## Overview

Magellan has updated Appendix C in the Idaho Behavioral Health Plan (IBHP) Provider Handbook to clarify language related to mileage reimbursement. Mileage reimbursement is available for IBHP providers for round-trip travel from your office to meet with a member in their home or alternative location, and back to your office, for applicable services. You can find a list of service codes eligible for reimbursement in Appendix C under "Mileage Reimbursement."

We will include this change in the updated Appendix C, available Sept. 1. Please review it for more details once published.
