Provider Notice

From: Magellan Healthcare
Subject: Use clinical judgment and Medical Necessity Criteria to identify youth for wraparound services

Overview

The Child and Adolescent Needs and Strengths (CANS) assessment in the Person-Centered Intelligence Solution (P-CIS) system identifies youth with the highest needs who may benefit from Wraparound Intensive Services (WInS), often called "Wraparound".

- The P-CIS system tabulates CANS scores and may indicate "Consider Wraparound" based on the youth's needs and strengths.
- If the system does not indicate "Consider Wraparound:"
- Providers may still refer to Wraparound if clinically indicated;
    - Providers should use clinical judgment to determine the most appropriate services and supports for the youth.

Refer a youth to wraparound when all of the following apply:

1. The CANS score is 2 or 3.
2. The youth and family want to participate in Wraparound.
3. The youth is multi-system involved or has needs in multiple systems.

Please continue to follow the Medical Necessity Criteria when making referrals.

How to make a Wraparound referral

Click here for the Wrapround referral form, or call the Magellan provider line 1-855-202-0983 (TTY 711) for information about how to make a Wraparound referral.
