

Provider Notice

From: Magellan Healthcare

Subject: SOR housing and SOR/SUPTRS PHP services will resume

Overview

Beginning Oct. 1, 2026, providers may resume delivering and billing for State Opioid Response (SOR) safe and sober housing (SSH) services. Providers will also be able to provide partial hospitalization program (PHP) for both SOR and Substance Use Prevention, Treatment and Recovery Services (SUPTRS) members.

Providers should continue to follow all applicable eligibility, documentation, authorization, and billing requirements for SSH and PHP services. Services provided before the effective date are not included in this reinstatement. As a reminder all safe and sober housing authorizations also need to submit proof of enrollment into an ASAM level of care.
