

# Provider Notice

**From:** Magellan Healthcare

**Subject:** Magellan updates SOR funding requirements effective March 1, 2026

## Overview

### **SOR program – Claim diagnosis requirements**

Beginning March 1, 2026, any claims submitted for SOR-funded members, regardless of the date-of-service, will be administratively denied if the primary diagnosis is not opioid- or stimulant-related.

### **SUPTRS program - Claim diagnosis requirements**

Beginning March 1, 2026, any claims submitted for Substance Use Prevention, Treatment, and Recovery Services (SUPTRS)-funded members, regardless of the date-of-service, will be administratively denied if they do not include a primary diagnosis of a substance use disorder, with the exception of opioids or stimulants.

## Provider guidance

- Providers are encouraged to review current billing practices to ensure that all claims submitted for SOR and SUPTRS members are billed with the appropriate primary diagnosis consistent with program funding requirements to avoid payment delays or denials.
- SOR funding is limited to opioid or stimulant use.
  - Examples: Use of Fentanyl, oxycodone, Percocet, heroin, and amphetamines.
- Providers must verify the type of Other State Funding (OSF), SOR or SUPTRS, for which the member has been approved and ensure the member’s diagnosis aligns with the diagnoses allowable for billing under that funding source.
  - For assistance verifying the type of OSF, please contact the Magellan Provider Line at 1-855-202-0983.

## Allowable diagnoses and codes

Members covered under SOR and SUPTRS programs are authorized under their respective other state-funded coverage based on self-reported need for substance use treatment. Federal requirements limit the allowable diagnoses that may be billed under each program. Please review the allowable diagnosis and codes tables below.

### **SOR allowable diagnoses and code ranges**

Code Range		High-Level Description
F1110	F1199	Opioid-related mental and behavioral disorders
F1410	F1499	Cocaine-related mental and behavioral disorders

F1510	F1599	Other stimulant-related mental and behavioral disorders
O993310	O99325	Drug use complicating pregnancy, childbirth, and the puerperium
T401X1A	T401X4A	Poisoning by heroin
T402X1A	T402X4A	Poisoning by other opioids
T403X1A	T403X4A	Poisoning by methadone
T404X1A	T404X4A	Poisoning by other synthetic narcotics
T405X1A	T405X4A	Poisoning by cocaine
T406X1A	T406X4A	Poisoning by other and unspecified narcotics
T436X1A	T436X4A	Poisoning by psychostimulants with abuse potential

#### SUPTR allowable diagnoses and code ranges

Code Range		High-Level Description
F1010	F1999	Mental and behavioral disorders due to psychoactive substance use
F550	F558	Abuse of non-dependence-producing substances
O99310	O99325	Drug use complicating pregnancy, childbirth, and the puerperium
T400X5A	T40995S	Adverse effects, underdosing, and sequelae of narcotics and psychodysleptics

### Eligibility renewals

- Eligibility screenings are done annually.
- If criteria continues to be met, eligibility will be extended.

### Questions?

If you have questions regarding these updates or need assistance, please contact your Magellan Provider Relations representative. If you are unsure who your provider relations representative is, please reach out to the provider inbox at [IdahoProvider@MagellanHealth.com](mailto:IdahoProvider@MagellanHealth.com).
